

Task List

Task 1 Internet Safety Pre-Assessment

As a pre-lesson assessment each student will complete a multiple choice written activity based on aspects of internet safety.

Task 2 Caught in the Web : Pre-viewing Activities

A series of activities designed to prepare students for viewing video "Caught in the Web".

Task 3 Caught in the Web : Post-viewing Activities

Suggested activities to support discussion, application and synthesis of internet safety rules introduced in the video "Caught in the Web".

Task 4 Peel Regional Police Visit

School visit by police officer from Peel Regional Police to review and consolidate internet safety rules.

Task 5 Internet Safety Post-Assessment

In a culminating activity for this unit, students, given a scenario that they have never seen before, will identify the internet safety rules that were observed and those that were broken.
