

Task 1: Internet Safety Pre-Assessment

As a pre-lesson assessment each student will complete a true-false written activity based on aspects of Internet safety.

1. Distribute pre-assessment tool, *Before the Web*, and instruct students to complete pre-assessment independently.
2. Use assessment results to determine students' background knowledge prior to any further instruction. Record results on tracking sheet provided.
3. Compare results to post-assessment at completion of unit.

Adaptations

As an alternative to the written assessment provided, a modified tool making use of visual clues may be substituted for ESL/ESD and/or Exceptional Students.

Notes To Teacher

Be sure to preview video prior to commencing unit, and review all resource materials provided. Photocopy class set of the assessment tool, *Before the Web*, and the personal Internet dictionary, *Word Web*. Photocopy the tracking sheet provided for your own use. Book TV/VCR for viewing video "Caught in the Web" for use during (total viewing time 18 minutes).
